**MAGNIFIER:** Use the magnifier to zoom in (+) and zoom out (-) to make more precise selections with the I-Bar:

**DELETE:** After using the I-Bar to make a selection, press the delete key to remove selected audio.

**SPLIT A CLIP:** Use the I-Bar and highlight inside the audio clip's waveform the portion you want split out. From the EDIT menu choose SPLIT. A new audio track will be created with the "split" audio included, which can be edited as desired.

**IMPORT AUDIO:** Insert a WAV, AIFF, or MP3 audio clip in your project by choosing the PROJECT menu and IMPORT AUDIO.
